

AV-10 10W 300°

FLICKER FREE

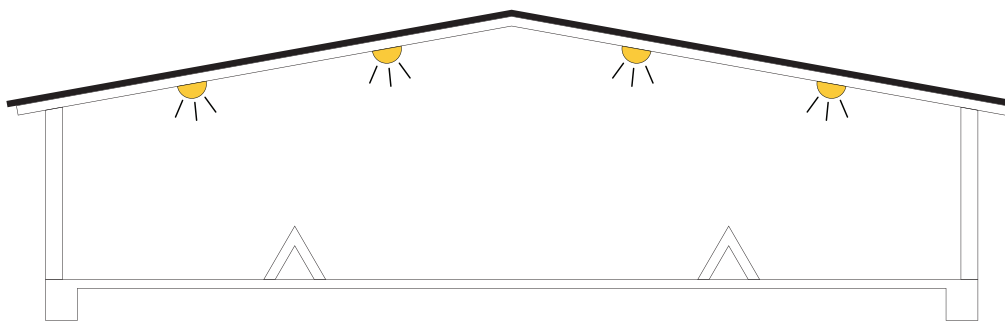

main housing

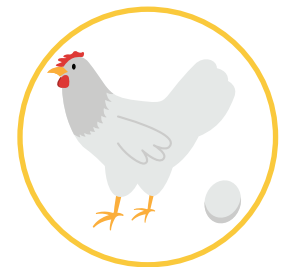

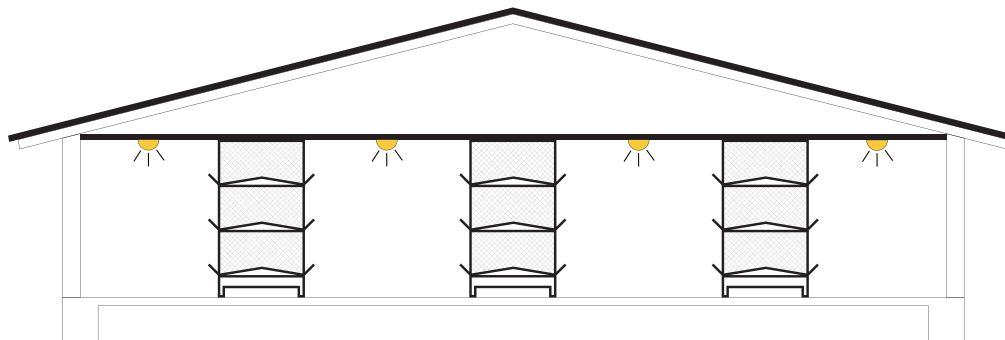

aluminium

pc coverage

AMBIENT LIGHTING:

meat animals:
chickens, turkeys,
ducks, capons and
guinea fowl

laying hens and
breeding animals

LED lamps for ambient lighting for every type of farming. Designed for maximum mechanical strength, they use high-quality Pcs with more than 92% light transmission. The practical IP67 connector makes mounting and installation safe and fast. Like all AV-LUCE products, this lamp is Flickering Free for maximum animal welfare.

The device provides IP67 protection and the use of self-extinguishing material for maximum plant safety.
